

## Theses

- Cleary, J.R., 1962. *Near earthquake studies in south-eastern Australia*. Ph.D. Thesis, Australian National University.
- Underwood, R., 1967. *The seismic network and its applications*. Ph.D. Thesis, Australian National University.
- Wright C., 1970. *P-wave investigations of the Earth's structure using the Warramunga seismic array*, Ph.D. Thesis, Australian National University
- Simpson, D.W., 1973. *P-wave velocity structure in the upper mantle in the Australian region*. Ph.D. Thesis, Australian National University.
- Goncz, J.H., 1974. *Surface wave studies of the Australian upper mantle*, Ph.D. Thesis, Australian National University.
- Datt, R. 1977. *A P-wave velocity structure for the upper mantle and transition zone, using the Warramunga seismic array*, Ph.D. Thesis, Australian National University.
- Collins, C.D.N., 1980. *Crustal structure in the central Bowen Basin, Queensland*, M.Sc. Thesis, University of Queensland.
- Henderajaya, L., 1981. *The shear wave velocity in the mantle to 1100 km depth, determined using the Warramunga seismic array*, Ph.D. Thesis, Australian National University
- Leven, J.H., 1980. *The application of synthetic seismograms to the interpretation of crustal and upper mantle structure*. Ph.D. Thesis, Australian National University.
- Richardson, R.G., 1980. *Crustal seismology*. Ph.D. Thesis, University of Tasmania.
- Drummond, B.J., 1982. *Crustal evolution in northwest Australia: evidence from seismic refraction data*. Ph.D. Thesis, Australian National University.
- Finlayson, D.M., 1983. *Lithospheric structure of Proterozoic-Phanerozoic Australia and Papua New Guinea*. D.Sc. Thesis, University of Edinburgh.
- Ingate, S.F., 1983. *Upper mantle structure from long-period SH*, Ph.D. Thesis, Australian National University.
- Dey, S.C. 1990. *Lateral variations in the upper mantle velocity structure under northern Australia*, Ph.D. Thesis, Australian National University.
- Goleby, B.R., 1990. *The crustal structure of the Arunta block, central Australia: results from deep seismic reflection profiling*, Ph.D. thesis, Australian National University..
- Cao, S.-H., 1990. *Synthetic seismograms and inverse problems in reflection seismology*, Ph.D. Thesis, Australian National University.
- Widiyantoro, S., 1997. *Studies of seismic tomography on regional and global scale*, Ph.D. Thesis, Australian National University
- Clitheroe, G. M., 1999. *Receiver based studies of the Australian continent*. Ph.D. Thesis, Australian National University.
- Cheng, H.-X., 2000. *Seismic body wave attenuation in the upper mantle beneath the Australian continent*, PhD Thesis, Australian National University.
- Hiyoshi, Y. 2001, *Regional surface waveform inversion for Australian paths*, Ph.D. Thesis, Australian National University.
- Kritski, A., 2002. *Structure and formation of the Argo Abyssal Plain and the adjacent shelf off north west Australia*. Ph.D. Thesis, University of Sydney.
- Yoshizawa, K., 2002. *Development and applications of new techniques for surface wave tomography*, Ph.D. Thesis, Australian National University.
- Fishwick, S., 2005. *The Australasian upper-mantle: insights from surface wave tomography*, Ph.D. Thesis, Australian National University
- Saygin, E., 2007. *Seismic Receiver and Noise Correlation Based Studies in Australia*. Ph.D. Thesis, Australian National University.
- Abdulah, A., 2007. *Seismic body wave attenuation tomography beneath the Australasian region*, Ph.D. Thesis, Australian National University.

Fichtner, A., 2009. *Full waveform inversion for structural and source parameters*, Ph.D. Thesis, University of Munich.
