SEISMOLOGY in the IPY

Sunday December 10, 2006
Nob Hill Room A/B,
Marriott Hotel, 55 Fourth St (Cnr Mission)
San Francisco, USA

7:30-8:30  Continental Breakfast

8:30-8:45  Welcome, goals of workshop, logistics  D. Wiens
8:45-9:00  NSF status and advice  T. Wagner
9:00-9:20  Polar Regions and global seismology  M. Ritzwoller
9:20-9:50  Discussion  B. Romanowicz

9:50-10:10  Break

10:10-10:30  Lithospheric Structure of East Antarctica  A. Reading
10:30-10:50  Lithospheric Structure of North Polar regions  F. Darbyshire
10:50-11:10  Cenozoic Tectonics and Mtn building in Antarctica  J. Lawrence
11:10-11:40  Discussion  T. Stern

11:40-1:00  Lunch

1:00-1:20  Seismology and glacial processes  P. Winberry
1:20-1:40  Seismic signals from glacial slip events  M. Nettles
1:40-2:20  Discussion  T. Larsen

2:20-2:30  Seismic instrumentation- introduction  A. Nyblade
2:30-2:50  Seismic instrumentation- permanent stations  K. Anderson

2:50-3:10  Break

3:10-3:30  Seismic instrumentation- temporary stations  J. Fowler
3:30-4:00  Discussion of instrumentation issues  R. Aster
4:00-4:45  Discussion of planned IPY projects  D. Wiens
4:45-5:15  Coordination, data exchange, outreach  A. Reading
5:15-5:30  Wrapup  D. Wiens
